Related **What is Scarlett Johansson like in real life?**
 Since no one is actually making a comment based on a long-term real life experience, I'm going to share mine because having the top answer to *anything*, be based on someone's horoscope (?!) is insane.

 I only met Scarlett Johansson once, quite a few years ago. It was in Glasgow, where a friend was part of the crew of a film they were shooting, and I met him for drinks in a pub where the entire team had just dropped in after a day of shooting. I didn't get to talk with her a lot, obviously, but she was a very friendly woman and a good sport; she made jokes with everyone, was familiar with the crew and didn't make a fuss about anything, even though they had been on the road for the entire day.

 So there you go. She's a normal human being.

 Edit: Thanks a lot for the upvotes and the responses guys :)

 I'd just like to add that I responded merely to express my own, short, experience. That particular film though, as was pointed out in various comments here, was shot almost entirely in a van, in Scotland, in horrible weather, and Scarlett Johansson did it for very little money at a time she was making a ton working for Marvel.

 Not only does that imply a certain dedication to her craft, but to be on such good terms with the crew and so comfortable with everyone says a lot about the kind of person she is.

What is it like to work with Scarlett Johansson?

Scarlett Johansson worked in a movie called " Under the skin", a low budget indie, and one of his costars was this guy. You can imagine that how much intimidating would have been for him to work with such a beautiful person and great artist, and Adam Pearson acknowledges all the prejudice he faced in his life because of his looks but he said she was really normal, cool and what he describes in his own words "She helped him challenge disfigurement stigma", and we all know how huge the persona of ScarJo is. I have never worked with her and maybe I can never tell, but I read what this guy said and professionally, she sounds amazing. And yes, Adam is now popular.

Related **Do you think Scarlett Johansson is a good actress?**

A good actor/actress is one who would turn an average script or a movie into something watchable. Johansson did that several times. Take for example her movie Lucy.

Even its director said that this movie doesn't comply with scientific standards. But Johansson's presence outsmarted everything and she delivered one of the best performances in her career in this movie. So yes, she's a very good actress - blessed with stunning good looks too.

What was Scarlett Johansson's idea?

We love knowing that this Black Widow easter egg was Scarlett's idea.

The arrow necklace you see here is first shown in Captain America: The Winter Soldier, as well as in the movie Avengers: Endgame.

It's a nod to Hawkeye, who worked with Black Widow on the original Avengers movie.

Director Joe Russo didn't take credit for being in Black Widow, however, he says it was Scarlett who thought of adding this item to her wardrobe in the film.

Who do you find more attractive: Scarlett Johansson or Angelina Jolie and why?

At their best you are not only talking about two of the most attractive women on the face of the earth but two of the biggest stars in the history of Hollywood.

Johansson

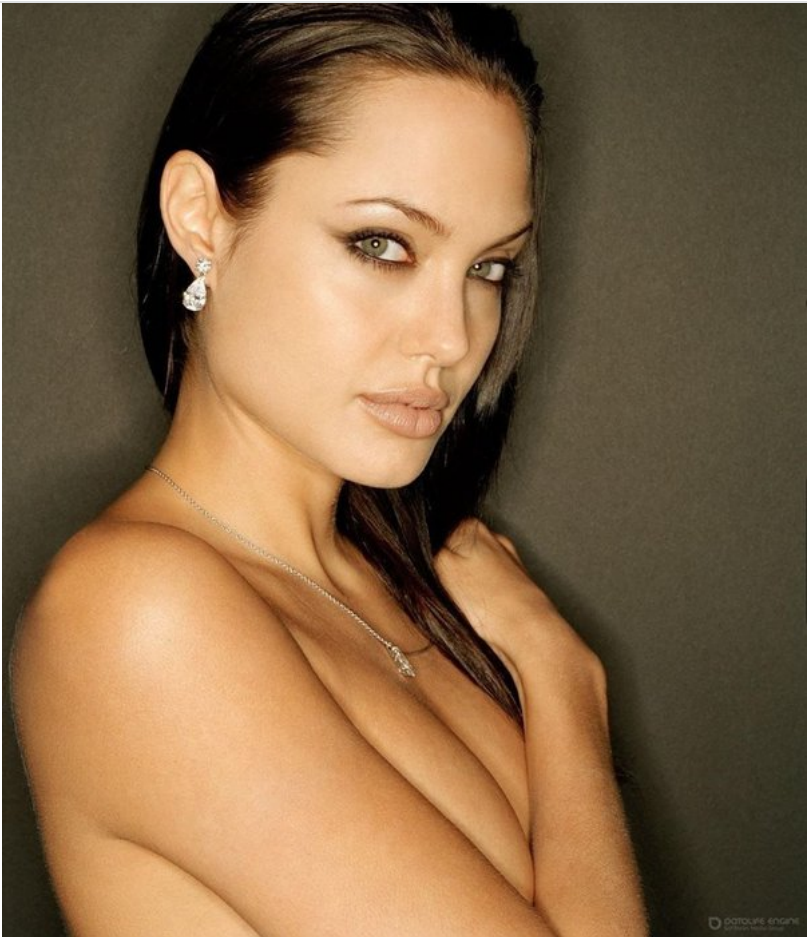

Jolie

You would really be splitting hairs between two 10/10's here. Personally I would give a slight edge to Angelina Jolie at her peak but could easily see why someone would take Scarlett. Presently I think Scarlett has the advantage. Mainly because she is nine years younger and still working more in big roles.

Enjoy these Scarlett's photos. Thanks for the answer request :)

Are Scarlett Johansson's looks overrated?

IMHO, YES.

She's always in the top 5 of everyone's hot or beautiful list and I just can't fathom why.

I mean, I know why she's hot. It's because of her chest size. And she's got a great body but not that great! Her body is what I like to call a body that looks good when it's clothed. But in a bikini? Nah I don't think so. She's average at best.

That's a tough one as both are beautiful women. You'd have to really split hairs to get to the bottom of this. Literally.

For starters, Johansson's Bieber haircut is terrible. It was terrible on Miley Cyrus, Katie Perry and Emma Watson, but at least Watson grew her hair back. Quickly.

Secondly, Johansson has a chubby nose. Doesn't suit her face that well at all. She often looks more bloated than fit. But she's still hot. Very hot.

She's beautiful that's certain.

Now that we have that out of the way, I've seen waaaaay hotter casually on the beach, in parties or even streets. What all of these women were missing was the celebrity swag that gives +1000 to attractiveness in our brains.
