I answered a similar question about this and I'll quote it here. [Kevin Winslow's answer to Is Elizabeth Olsen a bad actress, or is she misunderstood?](#)

Actually.... she's really good!

Ad removed. [Details](#)

She's not Cate Blanchett or Meryl Streep, but after watching her in the MCU films and Wandavision, I can definitely say she has a lot of talent.

Comedy is TOUGH. Wandavision emulates a 50's/60's style of sitcom writing in the first two episodes while also throwing in deeper scenes hinting at a darker undertone. This is not an easy feat for a lot of actors and actresses, because the script calls for a lot of nuance... emotions hiding under the surface, symbolism, and double meanings... while having a showy sitcom presentation as the top layer.

The real lynchpin of the show is that the audience needs to care about the romantic relationship between the two leads, or the show falls flat on its face. Both Elizabeth Olsen and Paul Bettany smash it out of the park in that respect! It's not easy to have a deep care of two characters buffoonishly and cartoonishly going through sitcom scenarios, but they sell the relationship delightfully and managed to make me believe in this little pocket universe they are in.

Even the first episode is a big departure for Olsen. This is a VERY different version of Wanda than we saw sticking it to Thanos in Avengers: Endgame.

The key to selling that scene is her love of The Vision, and the pain of losing him. And man... she sold it.

So turn around and do a flighty, "Bewitched" style comedy for 15–20 minutes in a sitcom style... and still feel like the same Wanda, only different in some way we don't fully understand yet... is impressive.

Plus... I genuinely laughed at the writing for the Magic Show in the second episode, and thought the two leads nailed that sitcom feel. It's an older style of acting with a particular flavor in the timing and the speech patterns.

It's not as easy as you might think, and the two of them come across like they've been doing it for years.

I haven't seen much of her other work, but just acting styles on the fly while keeping the serious moments intact was impressive enough for me. There are a lot of MCU actresses I don't think would pull it off. And the chemistry between her and Bettany just works, despite age differences and their vastly different sources of acting training.

She won me over. Any woman who can nail swap from dramatic to brazen comedy and land both has nothing to prove to me.

Updated 4y**Related Who is the most overrated actor?**

Readers on Quora, let me give you one of the most spectacular personality who rules Bollywood.

He's none other than **Salman Khan!**

Let's take a look at **what he has** and **what he doesn't**.

Looks : Yeah, we can say he has them. At least a bit.

Body : Depends on the movie

-What he doesn't have:-

Dance- Moving his arms and legs to the sides and shaking his body and hips are all he has.
Nope. No dancing skills.

Singing skill: I know that I shouldn't compare an actor to a singer but I really need to know why the hell was Salman Khan chosen for singing the song, *Mein hoon hero thera?* He can't sing.

Acting skill: If we watch his movies, we know he's acting. He doesn't show natural expressions. He overacts anger and rage while he underacts all other emotions.

Quora

Character: Killed a deer, ran over people who slept on the pavement, abused women, slapped his fan. How inhuman can a human get? He is not concerned about anyone other than himself.

Now, you see that Salman Khan doesn't have the most important skill an actor needs. If he is not good at them, then why is he still considered a superstar?

He is *the* most overrated actor in the world.

Thanks Andrea Samuel for the correction.

Thanks!

Related What emotionally shook actress Elizabeth Olsen?

Elizabeth Olsen, sister of the twins Mary-Kate and Ashley, has been very successful in the series WandaVision. But this prestige on TV has also earned him many controversies over the last few years, such as accusations of racism and his discontent with fame. She also deleted her Instagram profile last year for not speaking out about the death of actor Chadwick Boseman (1976-2020), the Black Panther.

On August 28, the world was shocked to receive the news that Chadwick Boseman had died. Elizabeth worked with the actor in Captain America – Civil War (2016), Avengers – Infinity War (2018) and Avengers: Endgame (2019), not hiding that they were great friends.

On an ABC show in late August, the actress made a quick appearance. Very shaken and with her eyes full of tears, she showed her affection. "It is fitting to mourn his death like a king," she declared. However, she did not manifest on social media and this angered fans. Her followers asked for her position and an explanation for not having paid any tribute on her Instagram profile. After the most diverse attacks she received, the artist chose to deactivate her account.

The American press reported that Elizabeth would have been in "shock" at the death of her friend and chose to suffer in private. Even with public pressure, she did not want to express her feelings, accepting only to record a video for the ABC channel. Currently, the actress is far from

Don't know about who has bigger biceps (not that it would matter in a fight) but Gal Gadot is 3 inches taller, about 10 pounds heavier, has had military training, and has consistently worked out for action movie roles longer than Daisy Ridley has.

So as far as strength goes, I'm willing to put my bets on Gadot. She's bigger, heavier, and has had more experience with physical training.

Her acting is insignificant. Until her accusations about Manson, I did not know who she was. Then I learned she was the girl in 13, and the vampire queen in True Blood (without knowing who she was I remember while watching I thought she was the only actor in the series who could not carry the weight of the role - an important character became insignificant with her acting)... Thats why her career was spiraling down and thats when she joined the metoo movement... and sadly her popularity soared afterwards...

Related Why does Gal Gadot act so fake?

I don't think it's Gal being a bad actress, I think it's Diana of Themyscira being awkward and out of place outside of her home and off the battlefield.

She doesn't really know how to relax except maybe to go hunt on horseback or something, she's still not quite acclimated to modern society.

That's just my take anyway. Maybe Gal actually *is* a lousy actress, and I'm just being generous.

Absolutely! He is a great actor. I recently watched Punisher season 1 & 2, and I have to say Ben Barnes pretty much nailed it as Billy Russo. A lot of people seem to criticize his character in S02 for being utterly disappointing, but this is not actually Ben's fault. He did an amazing job portraying a mentally broken guy who has trouble remembering his past. Even though the writing was shit, (mostly because the writers wanted his character to be like the Joker) Ben Barnes acting was both entertaining and enjoyable to watch.
